

## ***Arbutus Financial scores with ShoreTel SBE phone system from Glenbriar***

**VANCOUVER, BC** – February 22, 2008 — **Glenbriar Technologies Inc.** (CNQ: GBRT) announced a successful installation of ShoreTel's Small Business Edition (SBE) solution at Arbutus Financial Services Limited in Vancouver, BC.

When Arbutus Financial decided to set up their own office, they needed a new phone system that would be cost effective and would meet their business needs. Glenbriar helped them implement ShoreTel's SBE to give them the power of a ShoreTel phone system within their small business environment. ShoreTel's SBE solution provides for up to 50 users at one location, providing dramatically improved communications and productivity. Furthermore, without the luxury of dedicated IT staff, Arbutus Financial was able to depend on ShoreTel's ease-of-use and management to allow them to perform most of the basic functions, such as adding phones, changing extensions or moving users, without having to call in a service provider.

"The ShoreTel phone system has provided a leading edge complete phone system that integrates nicely with our existing systems," notes Neil Menzies, President of Arbutus Financial. "ShoreTel's SBE has allowed us to improve communication within our office and has integrated well with Outlook and our Personal Information Management (PIM) system, Maximizer. The quick dialer and call history features have also helped improve our productivity. We found the system easy and quick to learn. With the support of the team at Glenbriar, our people were able to improve productivity immediately. Today, we rarely dial a telephone number using the keypad on the phone. A simple click on a contact in our database and the call is dialed! Our voicemail appears beside our email in our inbox. We can forward the voicemail, or archive it in our client files electronically. Our solutions are simple yet effective. This is due in large part to the application of technology provided by Shoretel and Glenbriar. Thank you, Glenbriar, for our new phone system!"

ShoreTel's SBE provides small business owners with the benefits and functionality that have made ShoreTel an industry leader. ShoreTel's ease of use, ease of management, reliability (five 9's reliability with no single point of failure) and seamless scalability all combine to provide a phone system which is cost effective for small businesses but which positions them for future growth.
